

TIP of the MONTH
From Pat Sloan

When planning a quilt I find it easiest to start with several fabric I am pretty sure I want to use in the project. Then start to build on companion fabrics.

I put my starter fabrics on the table. Then I pull lots of companions and put THEM on the table too.

After I have a nice pile of fabric I start to look for pieces that don't seem to go. The color is not right.. or one stands out more than I'd like.

I remove those fabrics and I'm left with my working pile. I can add and subtract, but I have a good color flow to start!

See the General Directions document for how to apply the stocking to the background
