3. pull out 36 of the sets from step 2 to add neutral/white corners to, sew on corners
4. piece pineapples together
5. build your columns of pineapples by adding neutral/white rectangles and squares between pineapple blocks
6. piece together your 7 – 3.5” strips to put between columns of pineapple blocks. (at this point your top should be roughly 53” x 69” without borders)
7. piece together your 7 – 5.5” strips for your outer border. Add the vertical side borders and then the top and bottom horizontal borders.
8. Your finished quilt top should be roughly 62” x 78”.
